

What: Marine Debris Presentation

When: Wednesday, May 28, 2008, 7-8:30pm

Where: REI in Marina, 145 General Stilwel Dr.

Contact: xw@surfrider

THE (NOT SO) GREAT PACIFIC GARBAGE PATCH

Plastics in the Oceans – Issues and Solutions

The Surfrider Foundation's Monterey based Marine Debris Educator, Ximena Waissbluth, will present her dynamic slide show- *Sea of Consequences*. Ximena will discuss various issues as related to ocean plastics, including: the effects on sea life through ingestion and entanglement; health implications of toxic chemicals leaching to and from plastics; petroleum based vs bio-based plastics; solutions and simple actions we can each take. Come take part in the discussion of these critical issues... ALL WELCOME!
