Dear Honorable Senator Martinez,

- I'm concerned about global warming and its potential impacts on Florida.
 - o Include one or two supporting points that resonate with you, here are a few examples:
 - o Hurricanes, sea level rise, loss of coral reefs & mangroves that protect the coast from receding, your health and safety, quality of life, etc.
- The US needs to take leadership in reducing global warming pollution
 - o Because: we are the largest emitter of emissions and need to be a leader
- Scientists say that we must cut carbon emissions by 80% by the year 2050 in order to avoid the worst impacts of global warming.
- Please support any national efforts that call for mandatory emissions cuts of this scale.

Sincerely,
